ABSTRACT

This package of statistics on Colorado's school library media centers (LMCs) is the product of the Survey of School Library Media Centers in Colorado 1994. There are three major components to this profile: (1) a 210-page complete tabulation of the survey's results, arranged by school level and enrollment range; (2) a set of tables reporting statewide totals for selected library media statistics; and (3) a set of tables reporting selected statistical ratios for LMCs statewide, by school level and enrollment range. Statistical report sections are: Respondent Identification; Access to the Library Media Center; Library Media Staff; Electronic Access to Information; Library Media Services Per Typical Week; Library Media Collection; Annual Expenditures; and Standards-Based Education. Two appendices include Totals for School Library Media Centers in Colorado 1994 and Benchmarks for School Library Media Centers in Colorado 1994. (MAS)

TABLE OF CONTENTS

Introduction ____ xi

Statistics and Input-Output Measures for School Library Media Centers in Colorado 1994 ____ 1

School Identification (school name, enrollment, address, city, Zip code) ____ 1
- High schools serving 2,000 or more ____ 1
- High schools serving 1,000-1,999 ____ 2
- High schools serving 700-999 ____ 3
- High schools serving 500-699 ____ 4
- High schools serving 300-499 ____ 5
- High schools serving less than 300 ____ 6
- Middle schools serving 1,000-1,999 ____ 7
- Middle schools serving 700-999 ____ 8
- Middle schools serving 500-699 ____ 9
- Middle schools serving 300-499 ____ 10
- Middle schools serving less than 300 ____ 11
- Elementary schools serving 700-999 ____ 12
- Elementary schools serving 500-699 ____ 13
- Elementary schools serving 300-499 ____ 14
- Elementary schools serving less than 300 ____ 15

Part I--Respondent Identification (name of respondent, title, voice, fax) ____ 16
- High schools serving 2,000 or more ____ 16
- High schools serving 1,000-1,999 ____ 17
- High schools serving 700-999 ____ 18
- High schools serving 500-699 ____ 19
- High schools serving 300-499 ____ 20

Part I--Respondent Identification -- continued
High schools serving less than 300 ____ 21
Middle schools serving 1,000-1,999 ____ 22
Middle schools serving 700-999 ____ 23
Middle schools serving 500-699 ____ 24
Middle schools serving 300-499 ____ 25
Middle schools serving less than 300 ____ 26
Elementary schools serving 700-999 ____ 27
Elementary schools serving 500-699 ____ 28
Elementary schools serving 300-499 ____ 29
Elementary schools serving less than 300 ____ 30

Part II--Access to the Library Media Center (fixed schedule, flexible schedule, students independently) ____ 31
High schools serving 2,000 or more ____ 31
High schools serving 1,000-1,999 ____ 32
High schools serving 700-999 ____ 33
High schools serving 500-699 ____ 34
High schools serving 300-499 ____ 35
High schools serving less than 300 ____ 36
Middle schools serving 1,000-1,999 ____ 37
Middle schools serving 700-999 ____ 38
Middle schools serving 500-699 ____ 39
Middle schools serving 300-499 ____ 40
Middle schools serving less than 300 ____ 41
Elementary schools serving 700-999 ____ 42
Elementary schools serving 500-699 ____ 43
Elementary schools serving 300-499 ____ 44
Elementary schools serving less than 300 ____ 45

Part III--Library Media Staff (Typical Week) (number and hours by position), FTE Staff Per 100 Enrolled ___ 46
High schools serving 2,000 or more ___ 46
High schools serving 1,000-1,999 ___ 47
High schools serving 700-999 ___ 48
High schools serving 500-699 ___ 49
High schools serving 300-499 ___ 50
High schools serving less than 300 ___ 51
Middle schools serving 1,000-1,999 ___ 52
Middle schools serving 700-999 ___ 53
Middle schools serving 500-699 ___ 54
Middle schools serving 300-499 ___ 55
Middle schools serving less than 300 ___ 56
Elementary schools serving 700-999 ___ 57
Elementary schools serving 500-699 ___ 58
Elementary schools serving 300-499 ___ 59
Elementary schools serving less than 300 ___ 60

Part III--Library Media Staff -- continued (adult volunteers, student workers) ___ 61
High schools serving 2,000 or more ___ 61
High schools serving 1,000-1,999 ___ 62
High schools serving 700-999 ___ 63
High schools serving 500-699 ___ 64
High schools serving 300-499 ___ 65
High schools serving less than 300 ___ 66
Middle schools serving 1,000-1,999 ___ 67
Middle schools serving 700-999 ___ 68
Middle schools serving 500-699 ___ 69
Middle schools serving 300-499 ___ 70
Middle schools serving less than 300 ___ 71
Elementary schools serving 700-999 ___ 72

STATISTICS AND INPUT-OUTPUT MEASURES FOR SCHOOL LIBRARY MEDIA CENTERS IN COLORADO 1994

Part III--Library Media Staff -- continued
- Elementary schools serving 500-699 ____ 73
- Elementary schools serving 300-499 ____ 74
- Elementary schools serving less than 300 ____ 75

Part IV--Electronic Access to Information (local catalog, district catalog, online searching; Internet use for LM staff, teachers & other staff, students; ACLIN use for LM staff, teachers & other staff, students; tone phone, photocopier, fax, computer modem available in LMC) ____ 76
- High schools serving 2,000 or more ____ 76
- High schools serving 1,000-1,999 ____ 77
- High schools serving 700-999 ____ 78
- High schools serving 500-699 ____ 79
- High schools serving 300-499 ____ 80
- High schools serving less than 300 ____ 81
- Middle schools serving 1,000-1,999 ____ 82

STATISTICS AND INPUT-OUTPUT MEASURES FOR SCHOOL LIBRARY MEDIA CENTERS IN COLORADO 1994

Appendix A -- Totals for School Library Media Centers in Colorado 1994 _____ 1

Services Per Typical Week (Individual visits to LMC, circulation transactions, outside materials uses, items loaned to other libraries, information skills instruction contacts) _____ 1
Staff (endorsed library media specialists, staff with 18 hours in library media, certified teachers, BOCES/ contract staff, other paid staff, total LMC staff) _____ 1
Collections (print volumes, reference works on CD-ROM, laser disk, print magazine subscriptions, electronic full text subscriptions, electronic index subscriptions, current newspaper subscriptions, video materials, computer software packages) _____ 3
School Budgets (books & other print materials, non-print materials, supplies & other operating costs, total materials expenditures) _____ 3
Other Sources (books & other print materials, non-print materials, supplies & other operating costs, total materials expenditures) _____ 3

Appendix B -- Benchmarks for School Library Media Centers in Colorado 1994 _____ 1

Staff per 100 students (endorsed specialists, total paid staff) _____ 1
Weekly service ratios (visits per student, circulation per student, net loan rate, ILL/100 circulation ratio, information skills [instruction] contacts per 100 students) _____ 3
Percentage of LMS/teacher hours spent: Identifying materials, Planning with teachers, Teaching cooperatively, Evaluating student work, Total _____ 5
Collection Ratios (volumes per student, print subscriptions/100 students, electronic subscriptions/100 students, videos per 100 students, software per 100 students) _____ 7
Expenditures per student (print materials, non-print materials, supplies & other, total materials) _____ 9
Access to the Library Media Center (fixed schedule, flexible schedule, students independently) _____ 11
Electronic Access to Information (local catalog, district catalog, online searching; Internet use for LM staff, teachers/other staff, students; ACLIN use for LM staff, teachers/other staff, students; basic technology (tone phone, photocopier, fax, modem) _____ 13

COLORADO LIBRARY MEDIA PROFILE

This package of statistics on your school's library media center is the product of the Survey of School Library Media Centers in Colorado 1994. This survey is the first in a five-year series that will not only provide you with data to inform local decisions, but will permit us to track the development of library media services in schools statewide.

There are three major components to this Profile:

- Selected pages from **Statistics and Input-Output Measures for School Library Media Centers in Colorado 1994**

The complete tabulation of the survey's results runs 210 pages. Copies of the complete report may be borrowed from your school district office, regional library system office, or a state publications depository library. Included in this profile are pages for your school level and enrollment range. Schools are listed in descending order by enrollment to make appropriate comparisons easier. If your school is near the top or bottom of its group and you would like to see data for the next largest or smallest group, just let us know. (See the Table of Contents pages to determine which additional pages you need.) Also, if your school is not listed as part of the stratified random sample which completed the survey, but you are interested in becoming a voluntary participant in the 1995 survey, please let us know.

- **Totals for School Library Media Centers in Colorado 1994**

Another component of this profile is a set of tables reporting statewide totals for selected library media statistics. These figures will give you some idea of the size and scope of school library media centers (LMCs) as a sector of the library community.

- **Benchmarks for School Library Media Centers in Colorado 1994**

Another component of this profile is a set of tables reporting selected statistical ratios for LMCs statewide, by school level, and by enrollment range. Comparing your LMC's figures for these ratios with the average and quartile statistics for appropriate groups may help you to evaluate your LMC's staffing, collection, funding, and services.

Note: Quartile statistics include the highest figure reported (High), the figure below which three-fourths of LMCs fall (75%), and the median--the middle figure if all reports are arranged from high to low.

This profile component concludes with tables reporting the percentages of LMCs responding yes to questions about access to the LMC, electronic access to information, basic technology, and standards-based education.

If you need assistance in understanding or using your LMC's profile, please do not hesitate to contact us. If you have suggestions for improving next year's profiles, we would also appreciate your sharing them.

ABOUT THE SURVEY OF SCHOOL LIBRARY MEDIA CENTERS IN COLORADO 1994

The 1994 survey of school library media centers (LMCs) in Colorado is only the third such survey conducted by the Library Research Service since 1985. In 1985 and 1989, its two predecessors were administered to all LMCs in the state. In each case, only about half responded.

In the interest of increasing the number of reports, improving the quality of the data, and minimizing the burden of this activity on busy library media staff, the 1994 survey was administered to a sample of 300 LMCs. This sample was stratified by school level, enrollment range, and regional library system to ensure that each LMC in the state would have as many "peers" as possible. For instance, of the 300 sample cases, 100 were elementary schools; 100, junior high or middle schools; and 100, high schools. Within each of those groups, as close to equal numbers as possible were selected from each enrollment range. Likewise, a cross section of LMCs by regional library system was selected. In this way, the "peer" groups based on school level and enrollment are as close to equal size as possible.

In order to produce statewide figures--as well as summary statistics by school level and enrollment range--the sample responses were weighted to represent the actual proportions of different types of schools in the state.

It is hoped that this strategy will result in enough useful comparative data for every LMC that uses it. The sampling strategy alone was a demonstrable success: While only 50 percent of LMCs responded to the 1985 and 1989 surveys, 78 percent responded in 1994--a substantial improvement.

If you have any further questions regarding the methodology of the survey, please contact one of the Library Research Service staff listed on the preceeding page.

SCHOOL LIBRARY MEDIA CENTERS

BENCHMARKS

COLORADO 1994

Included in your **Colorado Library Media Profile** are several tables of benchmarks for school library media centers (LMCs) in the state. All of these benchmarks are ratios that should make it easier to compare your LMC's figures with those for other LMCs, either individually or grouped by school level or enrollment range. These ratios address both LMC resources (examples: staffing, the collection, funding) and services (examples: cooperation between LM staff and classroom teachers, circulation, information skills instruction contacts).

STAFFING RATIOS

Benchmarks for LMC staffing are provided by two ratios: endorsed library media specialists per 100 students and total LMC staff per 100 students.

ENDORSED LIBRARY MEDIA SPECIALISTS PER 100 STUDENTS

Endorsed library media specialists per 100 students is the number of library media specialists endorsed by the Colorado Department of Education expressed in full-time equivalents (FTEs) divided by the number of students enrolled in the school divided by 100.

Note: For purposes of calculating FTEs, full-time is defined as 40 hours per typical week. Individual districts and schools may vary in how they define full-time status.

This ratio is a measure of the extent to which an LMC's operations are supervised by a library media professional whose training has been endorsed by the state.

TOTAL LMC STAFF PER 100 STUDENTS

Total LMC staff per 100 students is the total number of LMC staff in FTEs divided by the number of students enrolled in the school divided by 100.

This ratio is a measure of the extent to which an LMC is staffed adequately, taking into consideration the number of students served by the LMC.

WEEKLY SERVICE RATIOS

Benchmarks for weekly LMC services are provided by five ratios: LMC visits per student, circulation transactions per student, net loan rate, ILL/100 circulation ratio, and information skills instruction contacts per 100 students.

LMC VISITS PER STUDENT

LMC visits per student is the number of visits to the LMC by individual students, whether alone or in classes, divided by the number of students enrolled in the school. (Example: If a class of 30 visits the LMC, count 30 visits, not one.)

This ratio is a measure of the frequency with which students use the LMC in general. In lieu of figures on uses of electronic information resources, this ratio is an important supplement to the circulation ratio.

CIRCULATION TRANSACTIONS PER STUDENT

Circulation transactions per student is the number of times library media materials are charged out to users divided by the number of students enrolled in the school.

This ratio is the traditional library use measure, but also includes non-book formats such as issues of print magazines, video materials, and computer software packages, when such items are permitted to circulate.

NET LOAN RATE

The net loan rate is the number of times items from the LMC collection are loaned to other LMCs or libraries divided by the number of materials from outside sources borrowed or rented by the LMC.

This ratio is a measure of the extent to which the LMC participates evenhandedly in resource sharing among libraries and exploits other resources available commer-

cially. Figures of 1.00 or more on this ratio indicate that the LMC either lends as much as it borrows or rents or that it lends more than it borrows or rents.

INTERLIBRARY LOANS PER 100 CIRCULATION RATIO

The ILL/100 circulation ratio is the number of items borrowed or rented by the LMC divided by circulation of materials from the LMC collection divided by 100.

This ratio is another measure of the extent to which the LMC participates in resource sharing among libraries and exploits other resources available commercially.

Caution: While generally it is good for an LMC to have a high figure for this ratio, an excessively high one--especially if coupled with low collection and circulation ratios--may indicate that the LMC's collection development policy needs to be reviewed.

INFORMATION SKILLS INSTRUCTION CONTACTS PER 100 STUDENTS

Information skills instruction contacts per student is the number of times LMC staff interact with individual students, whether alone or in classes, to provide information skills instruction divided by the number of students enrolled in the school divided by 100.

This ratio indicates the extent to which library media staff interact with students to provide information skills instruction.

PERCENTAGE OF LMS/TEACHERS HOURS SPENT ...

School library media specialists--and, in schools without them, certified teachers assigned to LMCs--spend substantial proportions of their time being involved directly in the instructional process. Four ratios call attention to different aspects of the instructional role played by professional library media staff.

IDENTIFYING MATERIALS

The percentage of LMS/teacher hours spent identifying materials is the number of hours endorsed library media specialists and/or certified teachers staffing the LMC

spent identifying materials for instructional units planned by classroom teachers divided by the total number of hours worked by such LMC staff.

This ratio indicates the proportion of professional LMC staff time spent participating in instruction as resource people.

PLANNING WITH TEACHERS

The percentage of LMS/teacher hours spent planning with teachers is the number of hours endorsed library media specialists and/or certified teachers staffing the LMC spent planning instructional units cooperatively with classroom teachers divided by the total number of hours worked by such LMC staff.

This ratio indicates the proportion of professional LMC staff time spent collaborating with classroom teachers in the design of instructional units.

TEACHING COOPERATIVELY

The percentage of LMS/teacher hours spent teaching cooperatively is the number of hours endorsed library media specialists and/or certified teachers staffing the LMC spent teaching instructional units cooperatively with classroom teachers divided by the total number of hours worked by such LMC staff.

This ratio indicates the proportion of professional LMC staff time spent collaborating with classroom teachers in the delivery of instruction.

EVALUATING STUDENT WORK

The percentage of LMS/teacher hours spent evaluating student work is the number of hours endorsed library media specialists and/or certified teachers staffing the LMC spent evaluating student work divided by the total number of h ours worked by such LMC staff. (Examples: grading class assignments, participating in assessments)

This ratio indicates the proportion of professional LMC staff time spent assessing the progress of students in learning.

TOTAL

The total percentage of LMS/teachers hours spent in instructional activities is the sum of the four above-mentioned types of hours divided by the total number of hours worked by such LMC staff.

This ratio indicates the proportion of professional LMC staff time spent in instructional activities.

COLLECTION RATIOS

Benchmarks for LMC collection development are provided by five ratios: volumes per student, print subscriptions per 100 students, electronic subscriptions per 100 students, video materials per 100 students, and computer software per 100 students.

VOLUMES PER STUDENT

Volumes per student is the number of print volumes in the LMC collection divided by the number of students enrolled in the school.

This ratio indicates the size of the LMC book collection in relation to the size of the student body it is designed to serve.

It is important to consider this ratio in relation to collection ratios for other formats (examples: electronic subscriptions, videos, software) as well as the circulation ratio. If volumes per student is relatively high, the percentage of non-circulating materials in the collection is relatively low, and circulation per student is relatively low, it may be time to consider weeding the collection and/or revising the LMC's collection development policy.

PRINT SUBSCRIPTIONS PER 100 STUDENTS

Print subscriptions per 100 students is the number of periodicals to which the LMC subscribes in print divided by the number of students enrolled in the school divided by 100.

This ratio indicates the scope of the LMC's print periodical holdings in relation to the size of the student body.

Over the next few years, it will be particularly important to monitor changes in this ratio relative to those for electronic subscriptions as well as the related change in per student spending for print and electronic subscriptions as well as the capital investment in equipment required to access electronic formats.

ELECTRONIC SUBSCRIPTIONS PER 100 STUDENTS

Electronic subscriptions per 100 students is the total number of resources to which the LMC subscribes in electronic format--whether full-text or index only--divided by the number of students enrolled in the school divided by 100.

This ratio indicates the quantity of electronic information resources available via the LMC in relation to the size of the student body.

Again, it will be important over the next few years to monitor changes from print to electronic subscriptions and related costs.

VIDEO MATERIALS PER 100 STUDENTS

Video materials per 100 students is the total number of video materials (examples: video cassettes, video disks) in the LMC collection divided by the number of students enrolled in the school divided by 100.

This ratio indicates the size of the video collection in relation to the size of the student body. Notably, unlike electronic subscriptions and computer software, video materials tend to be used by whole classes or groups of students rather than individuals.

COMPUTER SOFTWARE PACKAGES PER 100 STUDENTS

Computer software packages per 100 students is the total number of licensed computer software packages included in the LMC collection divided by the number of students enrolled in the school divided by 100. Exclude common office automation software used in managing the LMC, but not considered part of the collection (examples: WordPerfect, MS Word, Lotus 1-2-3, MS Excel, DBase, MS Access).

FUNDING RATIOS

Benchmarks for LMC funding are provided by four ratios: print materials expenditures per student, non-print materials expenditures per student, supplies and other operating expenditures per student, and total materials expenditures per student.

PRINT MATERIALS EXPENDITURES PER STUDENT

Print materials expenditures per student is total spending for print formats (examples: books, print subscriptions) divided by the number of students enrolled in the school.

This ratio indicates the level of spending on print materials relative to the size of the student body. From year to year, maintenance of an LMC's buying power depends on increases in such funding to account for increases in enrollment and/or increases in average costs for books and periodicals.

NON-PRINT MATERIALS EXPENDITURES PER STUDENT

Non-print materials expenditures per student is total spending for non-print formats (examples: electronic subscriptions, videos, computer software packages) divided by the number of students enrolled in the school.

This ratio indicates the level of spending on non-print materials relative to the size of the student body. As with print expenditures, maintenance of an LMC's non-print buying power depends on increases in such funding to account for increases in enrollment and/or increased charges from vendors of electronic resources.

Potentially, the shift from "just in case" print collections to "just in time" electronic access to information could stabilize--even reduce--the costs of LMC operation. Alas, among the many changes being wrought in the "information age" are changes in how information as a commodity is priced. Whether or not savings result from the shift from print to electronic resources may depend largely on how electronic information is "packaged" (examples: CD-ROM, laser disk, mini-disk, online) and priced (examples: quarterly or annual subscriptions, fee-for-use).

SUPPLIES & OTHER OPERATING EXPENDITURES PER STUDENT

Supplies and other operating expenditures per student is the total amount expended on behalf of the LMC for supplies and other costs required to maintain and access the collection divided by the number of students enrolled in the school. (Examples: Cataloging supplies, computer printer cartridges, paper)

This ratio indicates the extent of the marginal costs to the LMC of providing access to its collection and electronically networked information.

TOTAL MATERIALS EXPENDITURES PER STUDENT

Total materials expenditures per student is the sum of print and non-print materials costs and supplies and other operating costs divided by the number of students enrolled in the school.

This ratio indicates the overall cost to the LMC of providing access to its collection and electronically networked information.
